

WHO WE ARE

Ananta Premier Services is a hospitality consulting and development advisory firm built at the intersection of real estate potential and global brand excellence. We work closely with landowners, investors, and leading international hospitality brands to conceptualize, structure, and deliver high-value hospitality assets across India's most promising destinations.

Our strength lies not just in identifying opportunities, but in shaping them into compelling, experience-led developments—whether through greenfield projects or the repositioning of existing assets. Every opportunity we engage with is approached with a clear objective: to create a commercially viable, brand-aligned, and future-ready hospitality asset.

WHAT WE DO

We act as a strategic bridge between asset owners and global hotel brands, ensuring both sides derive maximum value from every engagement through curated, brand-aligned partnerships.

For landowners and investors, we unlock the true potential of real estate by transforming it into institutional-grade hospitality assets. This includes evaluating feasibility, crafting the right product mix, aligning with suitable brands, and guiding the project through its development journey. Our focus is on delivering enhanced asset valuation, stable revenue models, and long-term scalability.

For hospitality brands, we provide access to a curated pipeline of pre-qualified, high-potential opportunities. Each project is carefully assessed for location strength, design viability, and brand compatibility—enabling efficient expansion into high-growth markets without compromising on standards.
